The Wednesday Art Class have a special project on the drawing board. "Your Study in Blue"

Teacher Teresa has set a challenge to her class to create a 15cm x 15cm work on paper or small board.

The theme is "blue" - anything blue. It can be an image, an object, a feeling, an abstract piece, anything.

It can be in any medium (paint, print, drawing, collage, photo etc.) The condition is you have to be prepared to give it to another person in the class when classes return. When classes do return all the works will be displayed. Have fun with your art.

PANDEMANIA I'd had a bit of practice In this social isolation First shingles, then a surgery So it's been a long vacation From all the things I love to do And friends I want to see Just as soon as I'd recovered A pandemic! Lucky me! So I'm still at home just wondering If I'll ever have a life 'Cause I live in an area Where the virus spread is rife I've concluded that my hobbies Are less than they should be All need "non-essential businesses" Not open now for me I do get dressed and cross the road For my coffee every day But no friendly chat's permitted And it's always takeaway My exercise routine is strange It's something self-devised I mix stretching, tap and line dance To music - it's stylised! I'm baking cakes and cooking meals With meticulous preparation But someone has to eat it all And we've reached saturation But one day in the future We'll all be out, let free
